

NNLSO Annual Meeting 2019, Wednesday, April 3, 2019

Session: **Graduate and Professional School Small Interest Groups**

Presented by Speakers: Break out into smaller interest groups

Summary by GaeLynn Kuchar

Session Description: The AACRAO conference provides a great opportunity to connect with other professionals, but sometimes it can be challenging to connect with those whose interests most closely match yours. This session will permit graduate/professional school staff to break out into smaller focus groups by discipline (Graduate School /Medical School, etc.) to discuss questions most pertinent to their focus group. Each group will have a facilitator and participants are encouraged to bring their own ideas.

Notes:

This session included registrars from law schools, graduate schools, and medical schools where they broke out into smaller groups. Law school topics discussed:

1. Relationship between university registrar's office and law school registrar's office.
2. Grades Security
3. Course Selection
4. Banner Attributes
